

EFFECTIVE 10/31/2005

ADDED GUIDELINES AND INSPECTIONS REQUIRED

GUIDELINES

1. All new occupancies are required to have Arc-Fault protection. Please see handout.
2. All concrete walls over 10 feet in height must be engineered and have a sealed set of drawings.

INSPECTIONS

1. All concrete will be inspected before pouring. (footings, walls and slabs)
2. A sheer wall inspection must be done before any siding is put on the occupancy.
3. A drywall inspection of the garage must be done before the taping and mudding
